

# JOB EXPLORATION COUNSELING

## What is it?

Job exploration counseling will help students explore their vocational interests, learn more about in-demand industries and careers, and assess their career pathways of interest through discussion, information, and research.

## What are examples?

Job exploration counseling may include interest assessments, job shadowing, career mentorship, interviews, or workplace tours or field trips.

## Transition Planning Connections

### Age-Appropriate Transition Assessment

- What employment-related transition assessments have been completed?
- What were the results?

### Postsecondary Employment Goal

- What is the student's postsecondary employment goal?

### Coordinated Set of Activities

- What employment-related activities will support the student's postsecondary employment goal?
- How can vocational rehabilitation support the postsecondary employment goal?
- Will the student benefit from Pre-ETS?
- Would job exploration counseling be a beneficial Pre-ETS service?
